

**Sale Name:** Restaurant Liquidation - Pooler, GA

**LOT 494 - LARGE Stainless Work Counter with 2 coolers and milkshake station**

**Description**

This is a VERY large work counter with an overall length of 19'. Width and height are both 3'. The coolers, milkshake station and warming light are all in good working order. Additionally, they are on casters and will roll in and out of their spaces. The counter does have centrally located, hard-wired, electrical that will need to be disconnected. Coolers are plugged into other access points which get power from the hard-wired origination. Coolers include a True model TSSU-60-16D-2 prep table (serial number 8539719) and a True model TUC-27 under counter refrigerator (serial number 8518560). Milkshake station make and model is unknown. It is in working condition, but has some ice buildup from sitting idle. Warmer is a Hatco model GRAH-36 and is also in good working order. Winning bidders are encouraged to inspect this lot in person and are reminded that all disassembly and loading are their responsibility. Please plan ahead.

**Quantity:** 1
