

Sale Name: Collector's Auction - Statesboro, GA

LOT 167 - Colt Model 1849 Revolver in .31 Caliber

Description

Serial number 171884 indicates an 1860 production date. These pistols were commonly used as secondary backup weapons by soldiers, but were also used by many civilians. The finish is worn away, but the serial numbers and, barrel marking and Colts patent marks are still visible. All visible serial numbers match. Handle was custom inlaid and decorated at some point over the years. The inlay used in several places is missing. Handle is still in solid condition despite that. Trigger and hammer mechanism work properly, but the barrel does not rotate properly.

Quantity: 1
